

Responsible Gaming Policy

Guest Responsibility

We at Goplayasia are committed to promoting gaming as an alternative form of entertainment and leisure, with stakeholders sharing a shared responsibility to ensure that our gaming decisions are informed and our gaming behaviors are socially responsible.

Our primary concern is maintaining a fair and safe gaming experience and protecting players from any adverse consequences of the game.

GoPlayAsia is committed to providing customers with responsible gaming. We've created a responsible gaming program that goes above and beyond the minimums and delivers results that exceed expectations. Our programs help those who seek assistance or receive staff training to help guests, and we also strive to create an environment where responsible gaming awareness is more common and making helping customers easy and private.

We partner with our local consulting agency, Life Change Recovery Center, to provide our guests with professional customer care services.

Please enjoy rational, responsible and controlled play.

Responsible Gaming

For players who enjoy gambling frequently, it is not uncommon to spend over their budget sometimes. We advise that specific budget plans be made to ensure your gambling expenditure is affordable. Sometimes people deny the extent of their own problems and seek help only in crisis. Ask yourself honestly and if you think you might have a problem, set yourself the goal of stopping gambling for two weeks or a month as a test. If you are unable to achieve this, you could have a problem and this might affect not only you but also your family, career, and personal life. Please gamble responsibly.
